## Las Suculentas LEGO®

Algunas tienen espinas, y aun así son adorables. Otras son rechonchas, y no por ello menos elegantes. Los gurús del diseño de interiores les atribuyen la capacidad de realzar cualquier rincón de tu hogar. También son las plantas ideales para tener en casa porque hacen que incluso el jardinero doméstico más novato parezca todo un profesional. Te presentamos las Suculentas LEGO®.

Las suculentas son fantásticas como centros de mesa, pueden adornar repisas de ventanas y convierten cualquier espacio en instagramable al instante.

Dicen que tener suculentas en una habitación te ayuda a concentrarte: es muy probable que construir las de este set te dé los mismos resultados. Y con una ventaja adicional: ¡no hay que regarlas!

Ya las construyas  
maceta por maceta  
o en grupo, te  
despertarán una  
sonrisa siempre que las  
veas.

## Hay una suculenta para cada persona

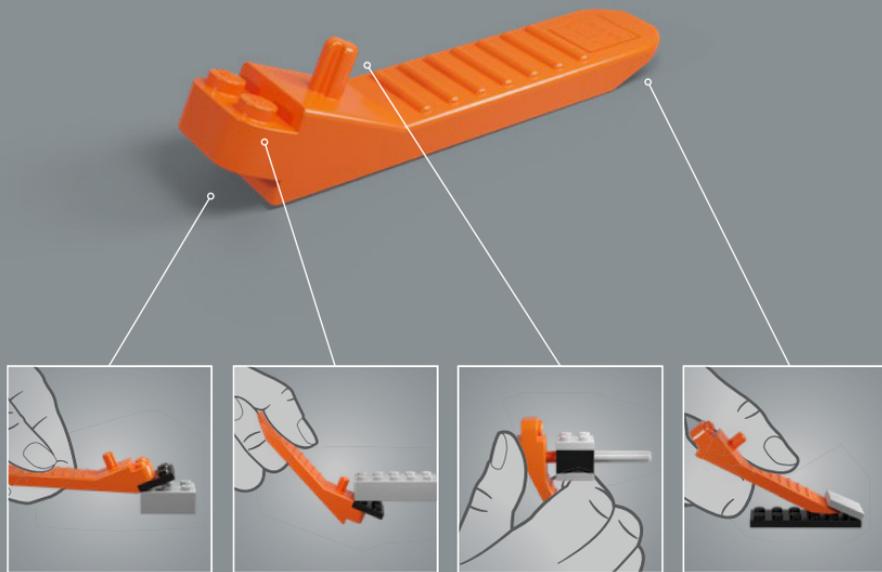

A diferencia de otras plantas de la colección LEGO® Botanical, cada una de las Suculentas LEGO se puede montar en su propia macetita y, después, ya decides si prefieres conectarlas entre sí para dar forma a una bella composición o exponerlas por separado. Además, las instrucciones vienen en folletos independientes para que puedas vivir la experiencia de construir con LEGO simultáneamente con tus amigos y familiares.

## Impresiones del equipo de diseño

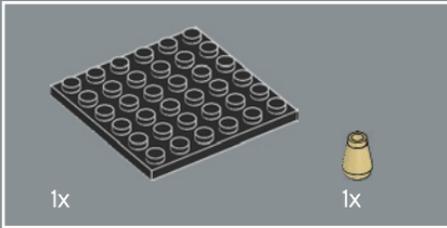

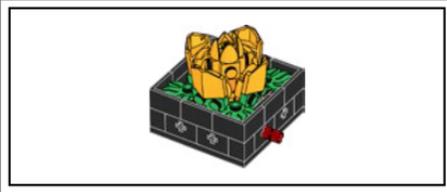

Andy es originario del sur de California, donde los jardines de suculentas abundan y son reconocidos por su belleza. "Todos mis amigos son expertos cultivadores de estas joyas del desierto. A mí, por el contrario, nunca me ha acompañado la suerte cuidando plantas. Por eso, tener la posibilidad de mostrar el aprecio que siento por mi hogar con este set LEGO® es un sueño hecho realidad. ¡Ninguna suculenta sufrió daños durante la creación de este set!", asegura Andy, para quien la realización de este proyecto representa una feliz primera vez.

De garras a nuestras suculentas favoritas  
Las múltiples puntas del aloe tienen su origen  
en elementos LEGO® que representan garras de  
fantásticas criaturas.

Hojas que nacieron como cucuruchos de helado  
Las hojas de esta suculenta, dispuestas como los pétalos de una rosa, tienen su origen en la retorcida parte superior de un cucurucho de helado.

Siempre viva  
En inglés, esta planta se conoce como *hen and chicks*  
(una expresión que significa *gallina y polluelos*) por su  
capacidad de producir una gran cantidad de retoños en  
poco tiempo.
